Health And Safety

Your Health And Safety Is Our Number One Concern And We Take That Responsibility Very Seriously.

Our Ships Are Equipped With A Medical Center, Which Is Customarily Staffed By 2 Doctors And Nurses On 24-Hour Call When At Sea.

When Docked, Supplementary Emergency Care May Also Be Obtained Through Local Medical Facilities. Standard Medical Evaluations Are Included, However, Medical Treatments, Medications And Procedures Are Charged.

The Medical Center Is Designed To Provide Ongoing Treatment And Preventative Care But Not For Extended Critical Care, And Villa Vie Residences Is Not Responsible For The Diagnosis, Treatment Or Services Furnished By Shipboard Medical Personnel.

Embracing Conscious Travel

Environmental Sustainability And Social Impact Initiatives

Global Harmony Program

Our Global Harmony Program Embodies Both Corporate Social Responsibility Programming And Environmental, Social, And Governance (ESG) Performance Criteria. Global Harmony Considers All Aspects Of The Life Cycle Of Our Cruise. From Early-Stage Retrofitting Of Our Vessel, To Responsible Sourcing Of Ship Supplies, Through The Operational Phase Both On-Board And Disembarking At Destinations, And Ultimately Decommissioning.

In The Retro-Fitting Phase, We Will Look To Adopt Proven Technologies To Assist In Pollution Abatement, Waste Management, And Low-Emission Energy. In Addition To This, We Will Seek Out Cutting-Edge Technology And Offer Research And Development Opportunities For Scientists And Engineers Exploring Innovative Ways To Improve Existing Processes In Areas Of Agriculture, Freshwater Conservation, And Alternative Energy.

We Have The Unique Opportunity With Responsible Sourcing To Both Identify Suppliers With Solid ESG Performance And Assess Supply Chains During Our Extensive Exploration Of The World. The Goal Of Responsible Sourcing Is To Support Businesses That Have Good Governance, Strong Environmental Performance, And Support The Communities They Operate In. We Can Be An Integral Part Of This Global Initiative!

Exploring With Responsibility

For The On-Board Operational Phase Of Our Journey, We Will Rely On A Systems Approach To Enhance Efficiencies And Continuously Improve On Performance. We Will Actively Pursue Certification Under ISO 14001 And ISO 50001, The International Environmental And Energy Management Standards, Respectively.

The Effectiveness Of These Programs Will Be Measured Against Our Aspirational Goals And Objectives As Well As Recognized ESG Performance Metrics. Given These Two Standards Mainly Focus On The Environmental And Governance Aspects Of ESG, We Have Developed A Social Impact Program (Aka Global Harmony).
